

POWER

RACING CYLINDER KIT

More power straight from the heart of the engine.

MxO racing 11-A cylinder P 20.384 00 12

For the correct tuning according to the circuit.

Short exhaust manifold P 20.379 33 11

Medium exhaust manifold P 20.380 33 11

RACING CARBURETION KIT

The development and proper carburetion are keys for optimal performance.

MxO 11-A carburetion kit P 20.382 00 95

RACING INTAKE KIT

Increases the maximum power and simplifies the carburetion.

COMPLETE induction system P 20.386 00 95 :

- 1)Internal manifold P 20.374 41 11
- 2)Intake rubber manifold A 90.607 00 00
- 3)Intake flange A 20.235 41 11
- 4)Special steel band A 90.550 00 00

RACING EXHAUST SILENCER

Exhaust silencer M5 A 20.196 00 00

RACING HEAD

Modified combustion chamber design for better combustion.

MxO 11-A head P 20.385 34 11

RACING CLUTCH KIT

More lighter rotating masses = more acceleration.

- Lightened drum disk A 20.252 81 00
- Lightened clutch disk A 20.373 81 11
- Lightened clutch crow P 20.250 31 11
- Lightened primary gear wheel A 20.255 34 00

ENGINE MOUNT

Recommended together with the racing intake kit.

Inclined engine mount A 20.383 00 00
