GIANCARLO TININI'S COMMENT. CRG's President **Giancarlo Tinini** commented in this way the forthcoming season: *"It is not going to be easy to repeat the great success of 2013, but we will try and do our best as always. This year we will also be competing in Rotax – a series that is very important to us and in which we count on doing good things – among the other International commitments, where we aim at getting the maximum result. We have 2/3 drivers on average on every category and several youngsters to raise. Predictions are not easy, especially due to the new tires employed in the International categories. We will be using Maxter engines developed by Savard in KZ and TM units for KF and KF Junior categories, developed by GFR and Galiffa.*

OFFICIAL CRG PARTNERS

As regarding chassis, we will start the season with our cutting edge Road Rebel in KZ, while we will use the Black Star in KF and KT1 in KF Junior, but they will certainly be developed throughout the season.”
